

LED PANELS

LOW GLARE - UGR<19

LGP1200 / LGP600 / LGP300

The Lumax low glare LED panel is perfect for offices, showrooms and retail spaces offer a low Uniform Glare Rating (UGR).

Low glare LED panels will reduce eye strain and reflected glare on computer monitors whilst also improving the visual environment and work place.

The smooth surface and IP44 rating makes for ease of cleaning.

Supplied with quick connectors and 3 pin flex and plug top for very quick installation.
